

Dear Ed -

4-14-69
Rec'd 10¢ stamp
for postage

APR 14 REC'D

Apr. 11, 1969.

When you sent me the packet of material for N.C.W. - you did not include the guide lines or instruction sheet - please send at once or let me know when is the dead line for receipt of scrap books.

Frankly, I had to let down on my activities a bit during the last few months - sort of "petered out" at a show last November - had to get some one to drive me home - was quite some "under the weather" since but have started in "in pretty full swing" lately.

Had to cancel several shows in which I was to exhibit and postponed several speaking engagements - did not think that I could do much for N.C.W. but am really trying and hope to get together a sort of half decent scrap book to send in.

In my area store keepers do not
want window displays - it creates an
invitation to break in - and we sure
have had more than our share around
here - so I'll place the red N.C.W.
cards all over the map.

By the way, can you send me several
copies of the Feb. Club News - quite a
few people asked me for them. I'd like
to suggest that either ^{the Club News} ~~it~~ be sent to all
who receive the Numismatist or at least
publicize thru the Numismatist that
members may receive it on request.

Of all the people I have spoken with
not one out of thirty or more ever heard
of the Club News and ~~would~~ most would
like to get it. Of course that means more
expense, but it might be well justified.
If it could be included in the same envelope
with the Numismatist - much postage
and envelope expense would be saved.

Best regards —

Sincerely,

Val Rasvolsky
